Production Supervisor

Job Description

We are looking for a responsible supervisor to oversee the workflow at our facilities and work hand in hand with the team to achieve operational tasks. The goal is to ensure that operations are carried out productively so as to ensure profitability and sustainable growth.

- Managing plant operations and maintenance.
- Supervising and maintaining communication between internal and external parties.
- Ensuring compliance with defined safety, health and quality standards.
- Maintaining operational records.
- Generating daily reports.
- Work hands on in the operation

Requirements

- Preferable experience in food and beverage industry
- Knowledge about operating automated and semi-automated machinery, maintenance requirements, and troubleshooting will be advantageous.
- Ability to learn a variety of job functions
- Good command in English and interpersonal skills
- General knowledge of MS Office, email etc.
- Diploma/Certificate in first line management or relevant field

- High school diploma; BSc/BA in management or relevant discipline will be considered an advantage
- Work on a roster-based schedule

Production Operator

Job Description

We are looking for a skilled Machine Operator to set up, maintain and operate machinery. You'll ensure the interminable and efficient running of production. A great machine operator is reliable and able to work with attention to detail and safety standards. Being a team player is essential since all tasks will require close collaboration with co-workers. The goal will be to ensure that production procedures will be carried on smoothly to maximize efficiency and within standards.

Requirements

- Experience in the food and beverage industry will be advantageous
- Understanding of production procedures
- Adherence to health and safety regulations
- Teamwork and communication skills
- Physical stamina and strength
- High school diploma or equivalent; technical degree is a plus
- Work on a roster-based schedule
